Siri:

Declarant, Jeffery M. Lillywhite, represents that he is the Attorney of Record for Douglas C. Terry, residing at 2248 Cottonwood Cove Lane, Salt Lake City, Utah 84121, that he is authorized to make this Declaration and execute this Terminal Disclaimer on behalf of Douglas C. Terry. Declarant further represents that Douglas C. Terry is the owner of 100% interest in the above-identified application as shown by the Assignment records of the U.S. Patent and Trademark Office recorded at the following reel and frame numbers:

Douglas C. Terry hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term of United States Patent No. 6,979,286, issued December 27, 2005 ("the '286 patent"), as such term is defined in 35 USC 154 and 173,

and as the term of said '286 patent is presently shortened by any terminal disclaimer. Douglas C. Terry hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the '286 patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, Douglas C. Terry does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 USC § 154 and 173 of the '286 patent, as the term of the '286 patent is shortened by any terminal disclaimer, in the event that the '286 patent expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR § 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer.

Declarant further declares that all statements made herein of Declarant's own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated this 25th day of October 2007.

Respectfully submitted,
